4. Paul Duby – Student Survey

Paul is unable at this time to locate the files from the last time the student survey was conducted. He will continue to look for them. The best idea is to keep the continuity of the survey with little changes. There is an option to purchase another survey to compare on a national level.

Jessica recommended staying with the current survey so she can get an idea of how things stand at this point in time on campus.

There is language and formatting updating that is needed on the current survey. The committee spent the meeting going through question by question and determined all changes.

Marlina Martínez will be working with Paul to make the recommended changes that the committee would like to see.
